

## Precision balance KERN

The classical balance in the laboratory.

Compact size, practical in a limited space.  
Percentage determination: makes it possible to store a given weight value (100 %) and to determine deviations from this target value.

Ring-shaped draught shield standard, only for models with weighing plate size , weighing space  $\varnothing \times H$  90x40 mm.

Protective working cover included with delivery

### Scale size storlek

440-21A =  $\varnothing$  81 mm

440-35A =  $\varnothing$  105 mm

440-47N = 130x130 mm

440-49A = 150x170 mm

### Weight capacity max/min

440-21A = 60 g / 0,02 g

440-35A = 600 g / 0,2 g

440-47N = 2000 g / 2 g

440-49A = 6000 g / 2 g

### DAkkS calibration certifikat

Optional

### Technical data

Overall size 165x230x80 mm

Weight 0,95 kg

Model 440-47N balance plate 130x130 mm

Model 440-49A balance plate 150x170 mm

Modell 440-35A med vågplatta  $\varnothing$  105 mm

Model 440-21A balance plate  $\varnothing$  81 mm plus ring shaped draught shield (included with 440-21A)

### Item

- KERN precision scale max 60 g
- KERN precision scale max 600 g
- KERN precision scale max 2000 g
- KERN precision scale max 6000 g

### Art no

- 440-21A
- 440-35A
- 440-47N
- 440-49A
