

Magnifier luminaire Tevisio

TEVISIO supports demanding viewing tasks with ergonomic perfection.

Whether in the medical field, in electronic, metal or watch sector, whether in assembly, workshop or inspection: TEVISIO is essential wherever demands on viewing are highest.

With its highly developed LED technology, innovative arm technology and a field of vision ideally matched to the distance to the eye, the TEVISIO magnifier luminaire offers optimum efficiency and ergonomics at the workplace.

Maintenance-free LED technology, for strong, large-area and uniform lighting. Good contrast viewing and very good colour recognition. Continuous dimming. Variants with segment switching (visualizer function) for detecting very fine structures and errors.

Robust aluminium housing. Closed design for protecting the user and the integrated technology.

Absolutely scratch-proof magnifying glass, optionally antireflective or with additional lens.

Large field of vision for distortion-free viewing. Approximately double magnification.

Uniquely mobile and balanced arm with vast radius of action.

Also available in ESD design.
