

Baby scale, KERN

Baby scale, EC type approval (CE). Approval for medical use according to 93/42/EEC. Including verification class III.

Ergonomic shape, very popular in paediatrics, because of its large weighing pan.

Special function for neonatology centres: Difference function for calculating the weight gain before and after feeding.

Robust ABS plastic for easy and hygienic cleaning.

Secure and non-slip positioning with its rubber feet.

HOLD function

When baby do not lie completely still, a stable weight is calculated using an average weight which is then "frozen". This means that you have sufficient time to attend to the baby first and then take the weight reading in peace

Rechargeable battery pack is optional.
