

2-sectioned examination table for max 300 kg

Electrically adjustable, three motors.
Designed in consultation with hospital professionals to be user-friendly for also heavier patients, with an ergonomic design for the staff.

Extra wide, 80 cm, with extra thick pads, 6 cm padding. Very robustly built, sturdy construction with four lifting points. Paper-roll holder included.

Chassis

All-welded white powder-coated steel tubes. Chromium-plated lifting tubes.

Backrest

Electrically adjustable.

Trendelenburg

Electrically adjustable.

Pads

Extra thick 6 cm foam plastic filling, comfortable, artificial leather upholstery. Many different colors to match the room decor.

Castors

Central locking 125 mm castors, one with directional locking function.

Cover/storage

The plastic cover, which has an integrated storage area, protects the motors. Its design with smooth surfaces helps when cleaning.

Motors

220-240 V/24 V. Hand control (24 V) is standard, foot control and/or double controls are available as option. Could be supplied with Battery Backup.

Dimensions

Length 205 cm
