

Salli saddle stools

The Salli saddle chairs are designed in consultation with back specialists for a correct and ergonomic sitting posture.

Seat/pad

The seat is designed as a saddle because of the natural seat posture this design provides. Upholstery in artificial or real leather. Available in different colours to match the room interior.

Foot

5 legs, aluminum, chrome coloured (standard) or black.

Wheels

Free (standard), braked or antistatic.

There are several advantages with a saddle chair:

- * Better seat posture
- * Shoulders are more relaxed
- * Pressure on the seat muscles are reduced
- * Leg blood circulation is increased

Height

Available in several different heights, see website for full list

Foot rest ring (accessory)

MODELS

Classic

Standard chair

Twin

Standard chair with 2-sectioned seat

Multiadjuster

Adjustable chair with 2-sectioned seat. Even the seat width may be adjusted.

Swing

A swing mechanism under the seat helps the chair follow the small movements one makes while seated. Very comfortable.

Swing FIT

Like Swing but with adjustable seat width.
