

3-sectioned examination table

Electrically or hydraulically adjustable. Designed in consultation with hospital professionals for a maximum patient comfort, user-friendly and ergonomic design.

Chassis

All-welded chromium-plated steel tubes, powder coating as option. Very sturdy construction with four lifting points. Adjusts very low and high to facilitate when the patient sits and leaves the table. Paper-roll holder is included.

Backrest and Trendelenburg

Gas spring adjusted. Easily accessible adjustment handles.

Seat and leg sections

Gas spring adjusted. Easily accessible adjustment handles. Several colors available to match the room decor.

Pads

Comfortable, artificial leather upholstery, foam plastic filling.

Castors

Central locking 125 mm castors, one with directional locking function.

Cover/storage

The plastic cover has an integrated storage area, its design helps when cleaning.

Motors

220-240 V/24 V. Battery backup is available as option (the electric model only). Hand control is standard, foot control and/or double controls are available as option.

Hydraulic pump

Foot pedal adjusted.

Armrests 010-8381

Neck cushion 010-0100

Armrest 010-8383

Foot support 010-8382
