

## Chair scales, KERN

### MODEL MCC FOR 250 KG

Ergonomic chair scale with BMI function. EC type approval (CE). Approval for medical use according 93/42/EEC. Including verification class III.

Robust design for professional care use.

Ideal for retirement homes, rehabilitation centres and clinics with lots of patients.

The ergonomic seat and the handles helps create a feeling of safety.

### Armrests and foot supports

Foldable, which helps while moving a patient from a wheelchair or bed.

### HOLD function

When patients do not stand completely still, a stable weight is calculated using an average weight which then "frozen". This means that you have sufficient time to attend to the patient first and then take the weight reading in peace.

Rechargeable battery pack included.
