

## Vela Thorax

Vela Thorax is a sturdy, robust chair electrically height adjustable. With the pair-locking castors and its extra low backrest it is very suitable for seated x-ray like Thorax.

### Chassis

The stable chassis with pair-locked castors increases the feeling of safety for the user. Also available with central locking castors locking all 4 castors at the same time.

### Seat

Tilttable, which helps when getting on and off.

### Artificial leather

The Compound artificial leather has a nice surface that doesn't feel slippery and sweaty. Black is standard, others available.

### Cleaning/disinfecting

Compound fulfil all high demands for medical use, with solutions up to 70-85% alcohol and chlore disinfection (1000-1200 ppm). After disinfecting, do a cold water wipe-off.

### Armrests

The armrests may be adjusted in height and side. Since they may be lowered to the same level as the seat, it's easy to get on and off the chair also sideways, from wheelchair or bed.

### Backrest

Height and depth adjustable.

### Dimensions

Height 42-62 cm  
 Seat 44x44 cm  
 Backrest 29x10 cm  
 Armrest pad 9x30 cm

Comments from X-ray staff at Aalborgs university hospital, Denmark:

- \* The chair is very easy to move and place at different machines.
- \* The lock system is very good. The chair is dead still during x-ray.
- \* The electric height adjustment helps adjusting the height very easily for each patient and machine.
- \* Thanks to the low backrest we can x-ray the lungs while the patient is seated

We have in our wide assortment a number of items made by other companies. **Vela** is a Danish manufacturer of quality chairs since 1935.
