

IV stand heavy-duty, for use with multiple pumps

A robust and very sturdy IV stand for use with multiple IV pumps.

Chassis

All-welded chromium-plated 30 / 19 mm steel tubes. Including 4 IV bag hooks.

Foot

Very sturdy powder-coated steel foot.

Knob locking

The height adjustment lock is of an expander construction, which locks around the whole steel tube. This provides for a soft and secure locking.

Handle

Adjustable in height, removable.

Castors

75 mm swivel castors, two of which has a locking device.

Pump holder

65 cm in height, made of 25 mm steel tubes.

Height

145-240 cm

Foot diameter

70 cm.

Weight

13 kg (excluding the pump holder, 1,7 kg and the handle, 0,4 kg).

Max weight load

25 kg pumps/machines evenly distributed for maximum stability. The top and its 4 hooks may be loaded with 10 kg bags evenly distributed. One single hook: 4 kg.
