

3-sectioned emergency and patient trolley

Hydraulically height adjustable. Developed for emergency hospital use, focusing on patient comfort, user friendliness and ergonomic design.

Chassis

Chromium-plated all-welded steel tubes. Sturdy construction, four lifting points. A wide height range, very low, very high, enables the staff to achieve correct and ergonomic work posture and helps the patient to get on and off the trolley.

Top

3-sectioned. Bumper wheels in each corner. Steering handle behind the backrest.

Height

Variably adjustable by hydraulic pump via foot pedals.

Pads

10 cm thick, of which 5 cm is of a pressure relief material, very comfortable. Available in four designs, with or without handles, with or without a sliding bottom surface.

Castors

Central locking 150 mm castors, of which one is a directional locking castors, to help achieve a straight transport. If choosing the available fifth steering wheel (optional), this replaces the directional locking castor.

Fifth steering wheel

Trendelenburg/backrest/heart position

Variably adjustable by gas springs.

Basket

The included basket could be pulled out.

Siderails

Accessories. Foldaway, easy to handle. Length 110 cm. Total height 37 cm, height above the pad ca 20 cm.

Siderails

IV stand

Accessory. Foldaway, height adjustable, very easy to handle. Mounted onto the trolley, no loose details.

The IV stand is foldable

Item	Art no
3-sectioned emergency patient trolley	B1-130-1100
Options and pads	
Siderails, pair	030-1004
IV stand	230-1002
Gas flask holder (different sizes)	130-1005
